- Java, Kotlin, SQL, Dart, HTML, Javscript, Typescript, CSS, C#, Python
- .NET, Flutter, Angular, Bootstrap, Django, Ionic, Git

WORK EXPERIENCE

Beanstalk-TI, Software Engineer

JAN 2019 - PRESENT

- Development of multiple mobile applications, cross-platform, using technologies such as IONIC and Flutter as frontend and .NET in backend. These apps integrate with an API and retrieve information through http requests. They can also access camera, mic, storage and location of the device [both iOS and Android using native code (Kotlin, Swift)] and send that data through the API
- Web development in Angular 7 of a web store for printing companies
- Integration into multi-person projects

Personal Mobile App Project

MAY 2019 - PRESENT

- Cross-platform mobile app that suggests random movies based on filter specs. The app contains user profile to store favourite movies, watched ones and watchlist. Same with TV Series. Using Flutter for client side implementation and .NET for server side. The data is stored using SQL Server. Rest api with JWT security as interface client-server.

PDT - Visabeira Global, Commercial Manager

SEP 2018 - JAN 2019

- Raising and managing clients for the telecommunications company NOS.
- Communication Skills and Product Exposure.

Musician

2011 - PRESENT

- Several musical projects where I participate as guitarist and/or singer
